

**Audio Board with Microphone**

Read this guide carefully before use

**Connections**

- |    |              |          |                                |
|----|--------------|----------|--------------------------------|
| 1. | AUDIO OUTPUT | (WHITE)  | LINE LEVEL                     |
| 2. | VIDEO OUTPUT | (YELLOW) | WHEN FITTED TO A CAMERA MODULE |
| 3. | 0v GROUND    | (BLACK)  |                                |
| 4. | 12vDC +      | (RED)    |                                |

The AUDIO lead uses the 0-volt line as its ground level. The return lead/screen for the AUDIO signal should be connected to the 0v lead.

When the PCBA is fitted to a camera module, line 2 is provided to pass the VIDEO signal.
